

## Aged Care On Call

Councils who use the Aged Care Module have the option to purchase the On Call Application.

The application enables information to be downloaded to the PDA for reference purposes on a 24/7 basis. A Laptop could be used if required.

The following information is downloaded:

### Client Details

- Name, address and telephone numbers
- Contacts, including doctors, emergency contacts and family
- Delivery Instructions
- Staff Preferences
- Summary of Rosters for the Roster Week or Range of Dates
- Details of Rosterable events
- Clients Notes
- Active Services/Tasks
- Suspensions Summary and Details

### Staff Details (caregiver)

- Name, address, telephone numbers
- Contacts
- Summary of Rosters
- Details of Rosterable events
- Find Free Staff
- Staff Incompatibility

### Major advantages at a glance:

- Replacement of paper information.
- Can be used on Pocket PCs, Laptops or Tablet PC
- Secure information –mobile device can be set with a password to prevent unauthorised access to information.
- Simple to use. Create the On Call database in a few easy steps in minutes.
